APRIL 1, 1933

NO. 24

WARNING ISSUED TO STUDENTS

Faculty = Freshmen To Fight For Fun

Unique Game Will Be Played Monday

Faculty to Meet Freshman in Basketball Contest.

If coming events cast their shadows before, then whether you realize it or not, dear reader, this campus is truly "in the gloaming" this week, for on next Monday afternoon the most stupendous athletic event in the history of the college is to be pulled off! On that date the "PhDs" are to mix it up with the college babies. In short, the opponents are the faculty, the game is basketball, the place is the court back of Terrell, the time Monday at 4:30, and the outcome much speculation.

Merely the announcement of such a contest makes further comment seem unnecessary. To say that the eyes of the G. S. C. W. sporting world are focused on this event is not enough—the truth is they're fairly standing out on stems and if interest continues to mount, a call for smoked glasses is expected. A sell out on seats, both in the grandstand and in Terrell B. windows is confidentially predicted, and the promoters feel now that they will be able not only to contribute greatly to the portrait of Mrs. Russell, but will practically buy the frame. In such a circumstance the old statement, "Come early and avoid the rush" would seem appropriate.

Aside from the fun and pleasure to be derived from the game, students are urged to attend, for a more serious purpose—can you imagine what would happen to your grade, should your major professor as a player look up into the bleachers and miss your smiling countenance? We shudder to discuss your disaster in such a case! But don't worry, to facilitate matters, the bleachers will probably be divided into separate cheering sections. For instance, there will be a reserved space for English majors, who may sit together and cheer in

(Continued on Page Three)

Seniors, Sophs On Enjoyable Outing

Hike to Gray Affords Bit of Recreation and Diversion For Classes.

Amid a gay flurry of handkerchiefs waving goodbye, and last minute words of advice as to how one should most befittingly uphold the brown and white, the senior and the sophomore normal classes set out Friday on their traditional, though slightly unconventional, class trip. This year, due to an unselfish consideration of the family pocket-book in this age of depression, the girls of each class voted to make this year's trip a unique as well as economical one, in the form of a hike to Gray where they were entertained royally with a banquet in good old G. S. C. W. style.

Clad in most becoming walking costumes, the group met under the lights with cup in hand, and cheery smiles ready to leave promptly at five A. M. Miss Pyle and Mrs. Dorris, being known as the champion walkers of the campus where speed as well as mileage is desired, headed the group. Dr. Webber, as official caretaker of the group brought up the rear, with Mr. Fowler along the sideline to cheer up any who might become faint-hearted ere the journey ended. Due to the unfortunate absence of a special faculty car, that part of the group was sadly thinned.

At Haddock, the party stopped to make a sight-seeing trip of the city, and to allow thoughtful room-mates time to send cards to those less fortunate ones left behind. When the group finished the excursion of the city, they attended a lecture at the Grant Memorial Hall. Following the lecture, the group broke up and the afternoon was given over to individual recreation. Various souvenirs of Haddock brought back as "surprises," tell their own story as to how that time was spent.

The next stop was at "Way-side Inn" between Haddock and Gray, where the group was entertained with delightful stunts put on by a representation from the sophomore class. One of the outstanding numbers on the program was a yodeling contest won by Miss Maude New Shepherd. Miss Josephine Redwine, master of ceremonies, gave an entertaining imitation of various faculty members, which aroused great hilarity on the part of the other members of the group in guessing the identity of each. At the conclusion of the program, a group of sophomores served cocktails, after which the hike was resumed, and the party winded its merry way on toward the fair city of Gray.

On the outskirts of the city, the group of college students was met by the Gray City Band

(Continued on Page Three)

CRITICS PRAISE LATEST BOOKS BY FACULTY MEMBERS

News has reached the campus of the release from the press of several new books by various members of the faculty and administration.

One of these is "The Virtue of the Postage Stamp" by Miss Josephine Pritchett. Reviewers and critics of this astounding volume declare that the author's name will go down in the annals of American literature for the wonderful thoughts expounding in this work.

By means of a clear, snappy, styles he treats the subject from all angles. It is compelling and thrilling. Henry Siedel Canby says of it, "She has done an excellent piece of work and given us a big story in a little book."

Another release which is being duly discussed and appreciated is Mrs. E. C. Beaman's "Art of Making Out a Card." A strict adherence to and appreciation of the rules of art, their limitations and advantages are elaborated on. It is as entertainingly written as it is significant. The Book-of-the Month Club has seen fit to adjudge this the book-of-the month for April.

One of the most charming groups of sketches of the spring is "Library Romance" by Dr. Henry Ford White. The book is conspicuously shrewd in its analysis of character. Deep understanding of the power of love is shown. A lucid, though bombastic style is employed. These essays were secured with pleasure as a continued article in the winter issues of the Good Housekeeping magazine.

Other new books to be reviewed later are, "The Confessions of a College President's Secretary" by Miss Mary Burns, "A New View of Cuba" by Miss Jessie Trawick, "Behind an Azalea Bush in Magnolia Gardens" by Miss Virginia Satterfield, and "The False Psychology of E. L. Thorndike" by Dr. Thomas B. Meadows.

MISS MIX-UP ADDED TO STAFF

An announcement that will bring joy and contentment to the students, faculty and general public is the one of the wonderful addition to our staff, Miss Lotta Mix-up of Hollywood and Sing-Sing fame has been rented at great expense to (the kind donor asked that "their" name be left out of this).

Through a great many key-holes and transoms our star reporter found that the monthly salary is \$10,000,000,000 (with emphasis on the zeros, cause they're free). BUT, don't think that the salary will in any way make Lotta (she wants you to call her that) snooty. Noisree, not little Lotta. Whattawoman (come on over and get acquainted)!

Anyone desiring misinformation on their beau-lovers will address Miss Lotta Mix-up, care of Colonnade, Milledgeville, Ga.

Students Propose Amendment To U. S. Constitution

Women Plan to Run Government. Will Provide Employment for Men.

Believing the present economic situation to be the result of too much inefficient man handling, the students of the Georgia State College for Women met en masse Friday morning April 30 to propose an amendment to the U. S. Constitution. If necessary the students are willing to suggest and carry out as far as possible the entire revision of the present Constitution.

The students contend that the Constitution was drawn up by men at a time when men were considered the elite of the community. However, at the present time, men are less than necessary. Their mental activity relative to government shows that a direct strain of feeble mindedness is prevalent. Men are no longer MEN but are merely Egotistical Myths. Women are the realities of today.

If government is to be successfully run, it is necessary that women take a hand. By uniting, the women of the United States can surpass the male strength by a flash. Women don't need parties. Democrat, Republican, Socialist and what-have-you parties will so break up the masculine continent, that the government will pass into the hands of the women without even a wisp of an argument.

However the students desire to take a more drastic step than just to beat the men at their political fray. They believe men to be so inefficient that they propose an amendment to bar males from holding any type of office whatsoever.

After the amendment has been accepted, a plan will be made by which all men will be sent to Africa to hunt tigers. After the women have gotten the government on the high plane where it should be they will be allowed to return. However, the only positions offered to them will be: (1) hunting four leaf clovers between the hours of 12 A. M. and 4 A. M. (2) searching for the end of the rainbow, (3) counting the stars, (4) untying knots in kite strings and (5) finding out how many words can be written with one fountain pen and one bottle of ink.

The amendment will be discussed at the next meeting of Congress.

Tot Tye Sheeley, Susie Butts Veal, and Margaret C. Hysler, were elected to act as lobbyists.

P. S. This is supposed to be THE COLONNADE.

Everyone Asked To Avoid Danger

College Will Not Be Responsible for Accidents Occurring Today.

A hint to the wise is sufficient. Beware, G. S. C. W. students! On this day thou shalt pick up no pocketbooks (first look for the string) rush through no dormitory room doors (first open carefully) then wait before going in until the string tied to the door-knob has pulled down the cup of water on the spot where you would have been.

On this day of days answer no questions—there's always a catch, resist all offers of candy (flavored with quinine and red pepper), especially from friends not usually so liberal, and above all, have patience in untying knots in your clothes, finding hidden text books and other precious belongings. Refrain from hating your roommate tonight when you settle down for a long night's rest only to find that your comfortable bed is to be shared with rats and rice crispies. How do you suppose she is faring, or did you forget April Fool?

Prince Of Wales Visits College

Delivers Address on "My Experiences in the African Jungle."

The Prince of Wales—none other—appeared here before a large and enthusiastic audience gathered in the biology lecture room Thursday evening, and delivered one of the most fascinating addresses ever heard on this campus.

His subject was "My Experiences in the African Jungle," and he related some breath-taking events which occurred during his recent big game hunt in the Congo.

At the close of his address the famous prince complimented G. S. C. W. very highly. "Never before in all of my travels have I seen such astounding beauty as I have found at this college," he said; and 1200 hearts missed a beat. "The young ladies of both faculty and student body have been most kind in looking after my welfare during my stay in Milledgeville, and I wish to take this time to express my appreciation to them for their hospitality. I also want to thank Misses Evelyn Turner and Martha McGavoc for the lovely orchids."

The address was to have been made in the Russell auditorium, but was changed at the last minute on account of the auditorium, being used for the practice of a recital.

The Prince left that night for London, England, where he expects to spend some time with his parents at Buckingham Palace.

LADIES AND GENTLEMEN! Our candidate deserves our vote. He is under no political obligations to anybody. Pussy-footing on any issue is not in his making. His pledges are the BARGAINS set forth clearly in these ADVERTISEMENTS. And, as you can see by the high prices quoted, a vote for him means LOSING MONEY. Elect him by patronizing these advertisers NOW.
